Term	Definition
Date Ideas	An idea for a couple or a group of people to go out and experience, or do. Date ideas can be categorised into various categories.
Category	The type of Date Idea, like sightseeing, food, health-related, wellness and so on.
Itinerary	A collection of Date Ideas, sorted by a filter of the user's choosing. The collection of Date Ideas are chosen by the user, from the list of available Date Ideas.
Popular	Defines the most favorited Date Ideas, and the most saved itineraries by other users. Such Date Ideas and/or itineraries will be recommended to a user once they wish to see either the popular Date Ideas or itineraries.
Favourites	Specifies a Date Idea that the user has filtered out to a separate list on itself. This is not an itinerary; more specifically, it is a list where the user bookmarks or saves Date Ideas they like or are interested in.
Filter	A specification a user chooses, to sort the Date Ideas based on certain criteria and/or constraints. The filters include the location, price range, duration, participants and whether the activity is held outdoors or indoors.
Location	Specifies the general location within Singapore that the Date Idea is held in or being held. Categories of locations include the north, south, east, west and central.
Price Range	Specifies the rough estimate of the price of the Date Idea being put forward to the user, or the estimate of the price of the parking lot depending on the duration used.
Duration	Specifies the time frame of the Date Idea; how long does the activity last for.
Participants	Specifies the amount of people that the proposed Date Idea is suitable or feasible for.
Nearby Parking	Specifies the parking lots, within HDB Multi-Storey Car Parks, that are within close proximity to the Date Idea a user has chosen to partake in.
Proximity	Defined as an circular area around the Date Idea within the user's setting, ranging from 500 metres to 5 kilometres.
